Múltiples cabezales de atención

Múltiples cabezales de atención

Múltiples cabezales de atención

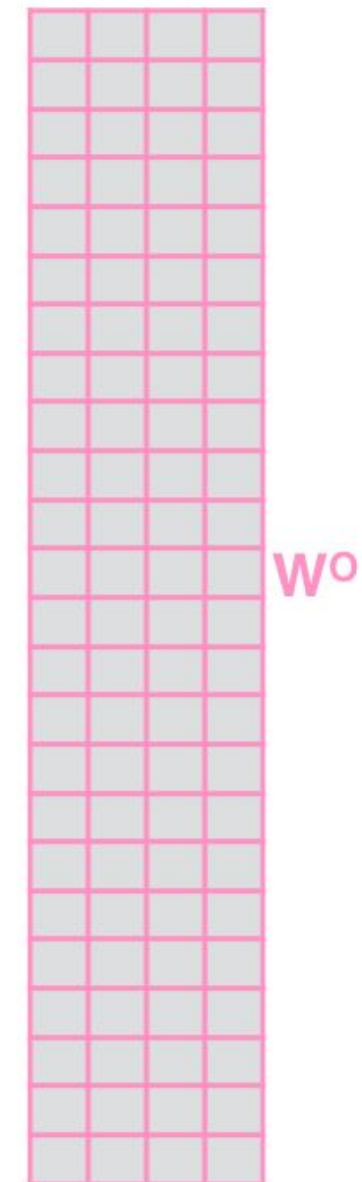

1) Concatenate all the attention heads

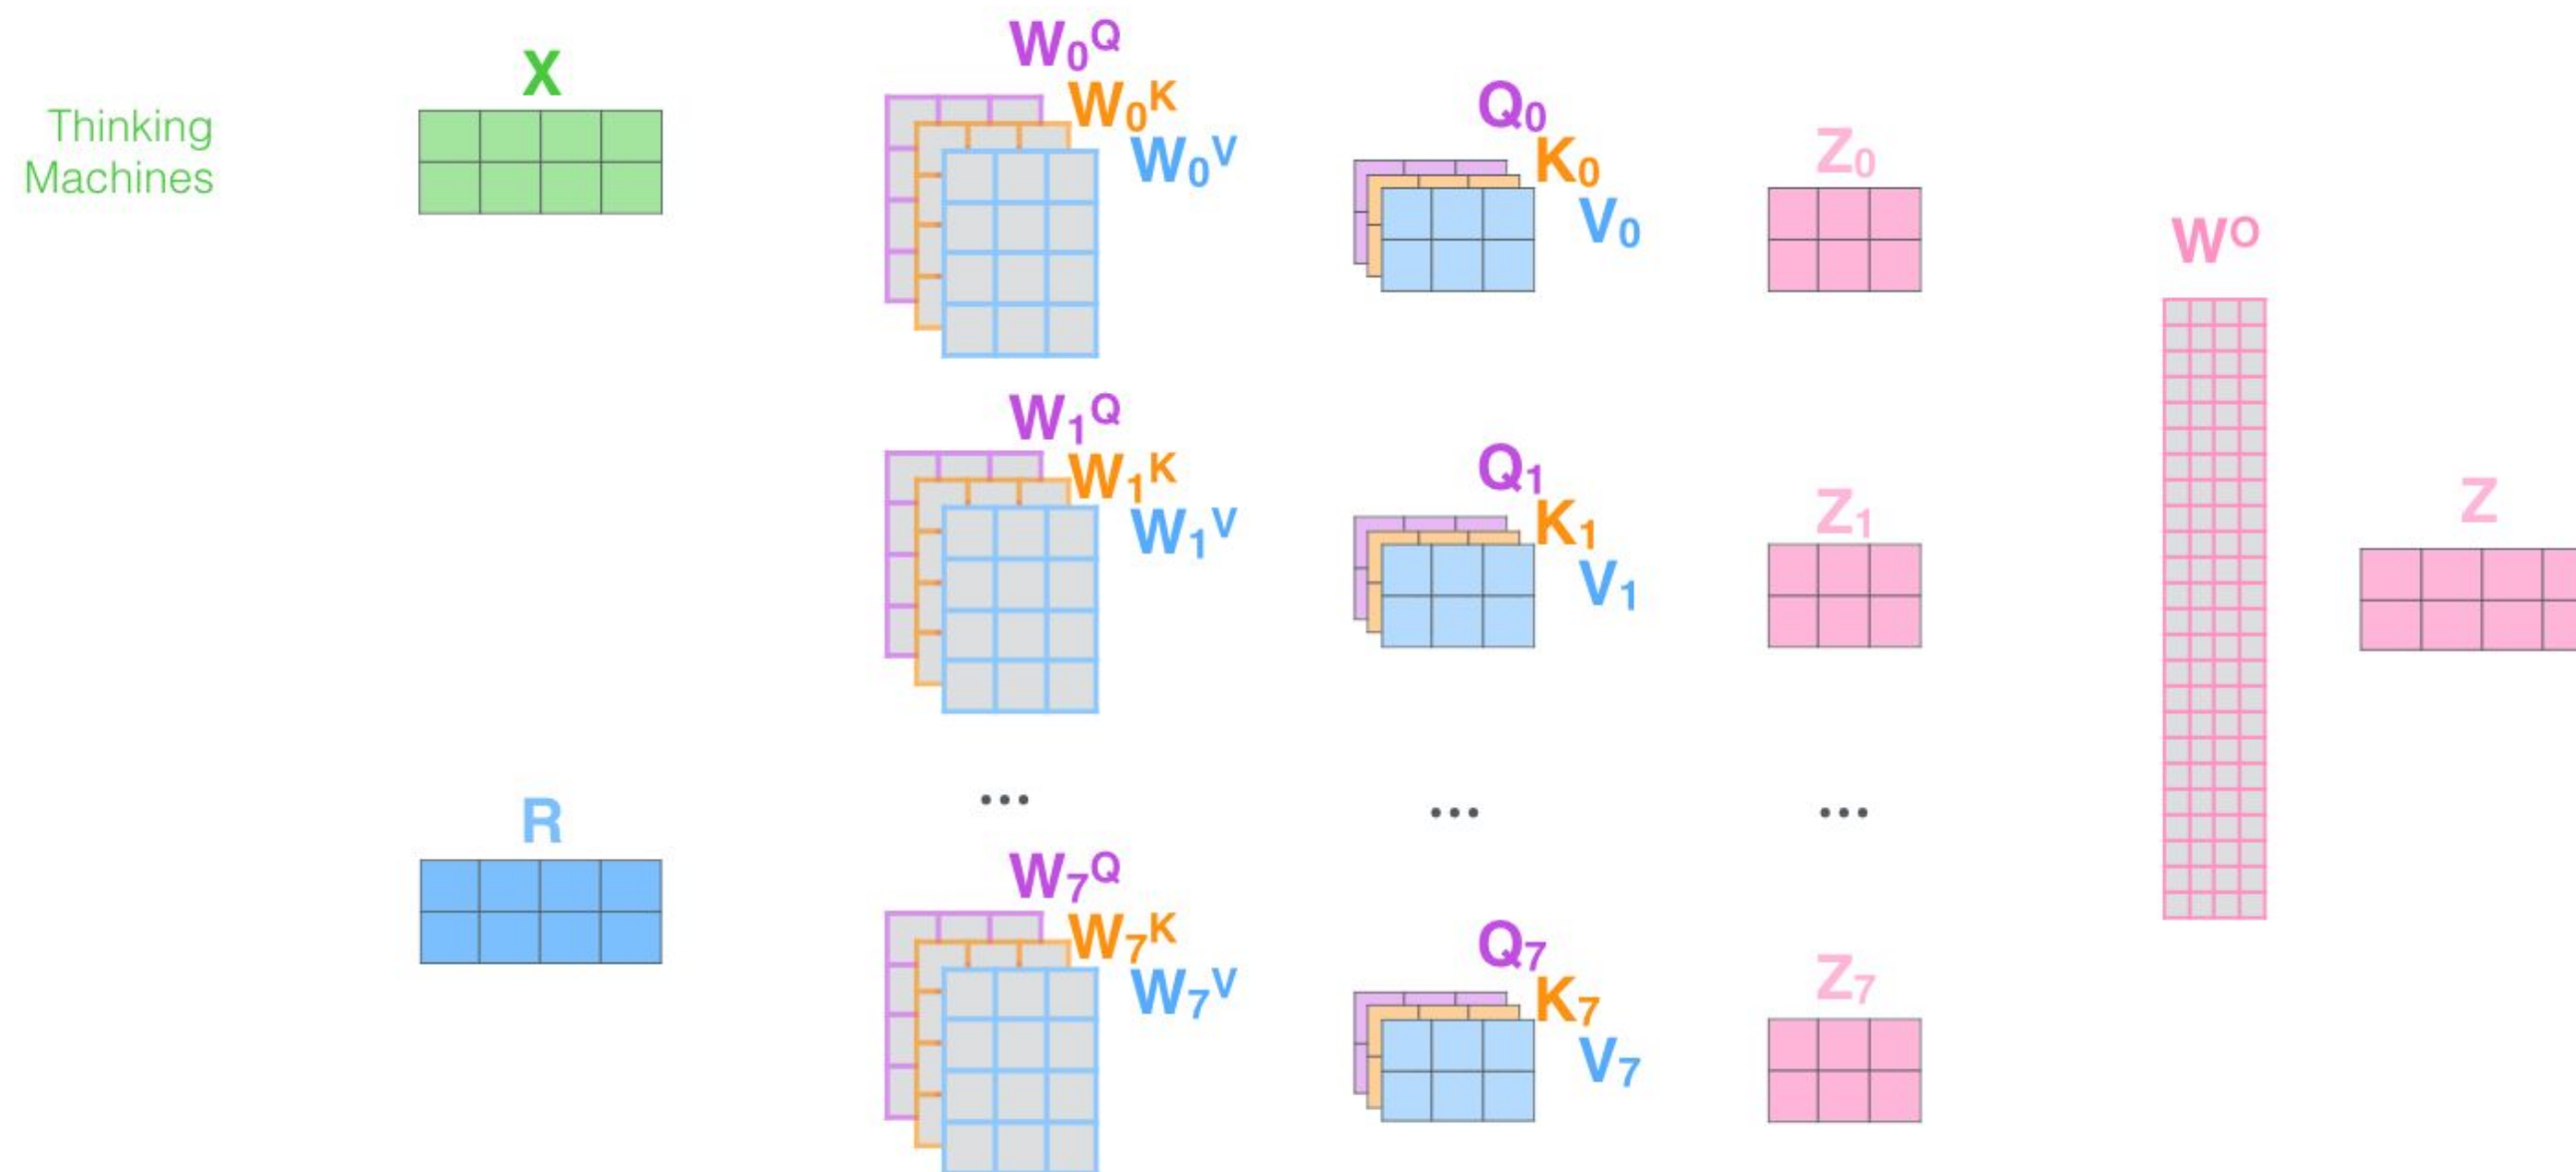

2) Multiply with a weight matrix W^O that was trained jointly with the model

X

3) The result would be the Z matrix that captures information from all the attention heads. We can send this forward to the FFNN

Múltiples cabezales de atención

¡Muchas gracias!
